To Whom It May Concern,

I am writing to express my high regard for Doug and his work. Over the last 7 months I worked closely with Doug producing marketing videos, illustrations and animated interface designs. I was very impressed with his design choices on each of the projects that he participated. Doug is very knowledgeable with mainstream design tools and is a very quick study when projects required the use of new applications.

I would work with Doug again and I highly recommend him for any projects requiring professional design and creative thought.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Kory Brown". The signature is fluid and cursive, with a large initial "L" and "K".
